Work continues on 2 wings (each 80 by 40 feet) extending out from the eastern and western sides of the large triad building (A) at Tracking Facility 2 and first observed on [REDACTED] Since [REDACTED] minor activity of an undetermined nature has taken place in front of the southern side of Triad Building C. New unidentified activity has been observed recently approximately 1,140 feet northeast of the 120-foot-diameter dome near a structure, [REDACTED] probably the semiburied structure which existed in [REDACTED] Eight small structures objects are now clustered at random nearby. A new road has been constructed to the site and a new trail/ground scar extends to the north for a distance of 1,735 feet to a very small unidentified facility/object. Trackage was first observed here in the snow on [REDACTED]
